PROFESSIONAL SUMMARY

Software Engineer with 5+ years of experience specializing in high-performance web and mobile applications using Next.js, React, React Native, TypeScript, and Node.js. Proven track record in product-driven fintech (P2P lending at Amartha) optimizing Core Web Vitals by 35%, architecting WebView JavaScript bridges, and maintaining 80%+ unit test coverage with Jest. Creator of open-source NPM packages (socket-kit) with experience in backend microservices using Golang and PostgreSQL.

TECHNICAL SKILLS

Frontend Development: JavaScript (ES6+), TypeScript, React, Next.js, React Native, Expo, NativeWind, Tailwind CSS, HTML5, CSS3, Vite, WebView Bridge Architecture

State & Data Management: Zustand, React Hooks, React Query, Context API, Data Integrity

Backend & Database: Node.js, Express.js, Golang (Chi, GORM), Socket.IO, REST API, OAuth 2.0, JWT, PostgreSQL, MySQL, MongoDB, SQLite

DevOps & Testing Tools: Jest (80%+ coverage), Docker, Turborepo, Git, GitHub, Postman, CleverTap, Jira, Confluence, AI-Assisted Development Tools

PROFESSIONAL EXPERIENCE

Software Engineer August 2021 – October 2026
Amartha Microfinance *South Jakarta, Indonesia*

- Refactored core P2P marketplace web applications using Next.js and Tailwind CSS, improving Core Web Vitals (reduced LCP by 35% and FCP to under 1.2s), resulting in a 15% increase in user retention.
- Engineered a secure JavaScript WebView bridge connecting React web modules with native mobile applications, reducing mobile feature deployment cycles without requiring full app store releases.
- Redesigned Know Your Customer (KYC) identity verification workflows using WebView and REST APIs, eliminating UI latency and reducing onboarding drop-off rate by 20%.
- Built comprehensive unit test suites using Jest, maintaining 80%+ code coverage and reducing production regression bugs by 25%.
- Optimized internal loan management dashboards, integrating CleverTap behavior tracking and enhancing state handling for high-concurrency transaction data.
- Standardized engineering onboarding documentation in Confluence and integrated AI-assisted development tools, increasing team sprint velocity by 20%.

Front-End Developer May 2020 – August 2021
TwisCode *Surabaya, Indonesia*

- Engineered responsive, high-complexity admin portals using Next.js, React, and REST APIs for multi-industry client applications, reducing code redundancy by 30% through reusable component architecture.
- Partnered with UI/UX designers and backend engineers in an Agile environment to deliver pixel-perfect, scalable web interfaces under tight sprint deadlines.

PROJECTS & OPEN SOURCE

socket-kit (NPM Package): Published and maintained an open-source library simplifying WebSocket lifecycle management and auto-reconnection logic for JavaScript and TypeScript applications.

JagaWarung / LarisKu (Mobile POS App): Developed an offline-first mobile POS application using React Native, Expo Router, NativeWind v4, Zustand, and expo-sqlite.

EDUCATION

Diploma (D3) in Manajemen Informatika January 2016 – November 2019
Universitas Mikroskil *Medan, Indonesia*

CERTIFICATIONS

Back End Golang Developer Intensive Bootcamp — Alterra Academy (July 2021 – August 2021)
Full Stack Developer JavaScript Intensive Bootcamp — PT. DumbWays Indonesia Teknologi (February 2020 – May 2020)
